I regret I cannot support the proposal. Its acceptance will commit Govt to a very large increase in recurring expenditure in all the Departments of the State which have employees residing at Mandya.

The cases quoted in the notes above are distinguishable. The staff to whom house rent allowance has now been

as regards house-rent allys, the officers all depts working at Mandya should be treated alike. As it is only the question of financial assistance to grant these allys to all the depts. Any determination to abolish all house rent allys - in the case of the Irwin Canal Estt, this will not cause any hardship as Peons are drawing land allys also.

Resubmitted to the Third Member of Council.

2. The Financial Secretary does not seem to be fully aware of the facts involved, which are as below:

(1) The local allowance referred to and free quarters have been sanctioned whenever execution by departmental agency has been taken up on big works, - such as, Lerikanive works, Krishnarajasagara Dam, Etc.

(2) Free quarters have been provided at Government expense in all cases and such quarters have been provided at Mandya also.

(3) In the result many members of the staff of No.V Irwin Canal and Project Division are now living in buildings provided by Government and it is only a small number of hands that are being paid house rent for want of quarters. The rent will be stopped as soon as quarters are provided for them also.

(4) If House rent is done away with for these few hands for whom quarters are not available, the question whether rents should be recovered from the other hands now occupying Government buildings will arise.

3. Besides the above facts, I wish to invite kind attention to the following very important considerations explaining why free quarters or house rent are being given to Irwin Canal Divisions.

i)

WD 2835—GPB—2,000—18-4-29

i) The case is a special one as works are being done departmentally and there is no comparison between other departments and this special case.

ii) As the executive hands will have to be on the works both morning and evening, they well deserve the 20% local allowance and free quarters for the hard work they have to do. The office hands in these Divisions have work equally taxing which requires much of the time even beyond office hours and on holidays and Sundays also to cope with the routine work.

iii) The holidays they enjoy are only those on which labourers do not work. Even on Sundays when payments are being made , they work for more than half a day for checking bills and advances outstanding against the labour.

iv) Execution by Departmental work means a very large number of petty contractors having men as small in number as even three. In fact, the total number of labourers in the Irwin Canal Division is about 8,000 to 10,000 now and the number of contractors is above 2,000 or even more against one big or a few contractors, if the contract system had been adopted. The rates paid to the small contractors are settled by bargaining and on the basis of labour attendance and is limited to the wages the coolies are satisfied with. Thus, a large part of the large contractors' profit is - saved to Government after excluding the small cost of extra establishment, etc.

v) Payment is made every week in each Division and the - number of claims to be checked by office hands is 500 to 1,000 and more during each weekly payment. Each claim amounts to about from Rs.5/- to 30 or 40 only in a few cases going up to about 100 or more. Measurements of those -- claims, and preparation of bills and executive check by

Serial No.

officers will take 4 to 5 days during each week and the bills as they get ready will be sent to the Division Office for audit and passing for payment. Even with a well arranged programme it is found impossible without working extra hours, to cope with the weekly measurements and preparation of bills and their timely audit in office for making payments to the - labour, for the weekly market purchases.

vi) The advance accounts have to be maintained for many of these, "D" Registers and many other records have to be compiled in detail, from the paid vouchers, and the recoupment bills will have to be got ready for getting cash for following week's payment.

3. Hence the office hands have to work generally both morning and evening, in fact, during night also when bills have to be checked, including many of the holidays. Thus the work they have to do is of a very arduous nature and the leisure left to them is very small. Except in the case of a few instances here and there, and probably in that of the hands of the Revenue Department whose work may be rather light till irrigation actually begins, the local allowances and free quarters appear to be quite deserved and there seems no point in the other departments whose hands work in the usual manner claiming rent or free quarters by quoting the instances of the Irwin Canal Divisions. I may also point out here that many to whom house rent is paid are engaged in field work outside Mandya leaving their families and belongings in the buildings rented at Mandya. In the above circumstances, it will cause

WD 2835—GPB—2,000—18-4-29

considerable hardship if those that are stationed at Mandya are deprived of rent or made to pay rent for living in Government buildings. I venture to hope, therefore, that I have made it clear that the special case of Irwin Canal hands is not to be compared with those of other departments.

I may state here that if Government think execution of works by departmental system may be discontinued, the estimates for the Cauvery Branch will be based on rates required for execution by the contract system (although excesses may be involved) when submitting them to Government for sanction. I request that as the works taken up will be nearly completed by -- June 1931 the question of stopping house rent, and local allowances may be taken up after June 1931 when -- execution of new works will have to be commenced. The total amount involved will be about Rs.2,000/- till end of June 1931 and since paying rent is found more economical than construction of new quarters on account of reduction of grant, new constructions have been delayed.

I may be pardoned for the long explanation I have given, which I have thought necessary to make the position clear.

While I do not agree with some of the arguments advanced by Mr. Seshachar for the grant of H.R. allowance to all the Irrn Canal Work staff, I would say that the proposal made at A - to continue the existing arrangements undisturbed like June 1931 - is reasonable and may be approved. The whole question of part & L.a and h. rent allowances to may be re-examined after June 31.

N.Rama Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
Development Departments, Bangalore.

SIR,

I have the honor to state that it is reported by the Deputy Director of Public Instruction, Mysore that house rent at Mandya has gone up to a very great extent owing to paucity of suitable houses and the opening of the Munsiff's Court and the offices connected with the Irwin Canal Scheme and that consequently the poorly paid teachers of the Department find it hard to pay the high rates of rent to secure suitable houses. It is also stated that the officials of the Police Department stationed at Mandya are paid house rent allowances at rates varying according to the status of the officers and that the officials of the Revenue Department also get a house rent allowance calculated at 10 per cent of their salary.

In the circumstances, I recommend that all officials of the Education Department stationed at Mandya may also be kindly given house rent allowance at 10 per cent of their salary subject to a minimum of Rs. 2/- each per mensem. The total rent required will be about Rs. 80/- per mensem.

A list showing the names, pay and other particulars of officials of the Department residing at Mandya is submitted for kind perusal.

I have the honor to be,
Sir,
Your most obedient servant,
